

*WellSpring is a Fully Accredited, Private, Washington State Approved School, grades, 8-12.  
Student transcripts and portfolios are transferable to all schools and colleges.*

# WELLSPRING COMMUNITY HIGH SCHOOL

*Since its inception in 1992, WellSpring has proved to be a safe haven,  
a dynamic learning center, and a springboard to college or the work world for its students.*

## ***Students learn in a supportive community of mentors and peers.***

WellSpring's teachers are passionate about their subjects and engage their students in an academically creative and challenging learning environment.

## ***Core subjects are integrated with cultural, arts, and environmental themes.***

Weekly field studies and block times are devoted to science exploration, service-learning, studio and performance arts, leadership games, technology and design projects.

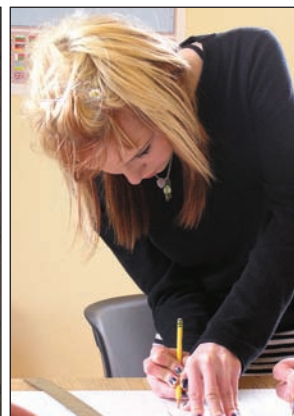

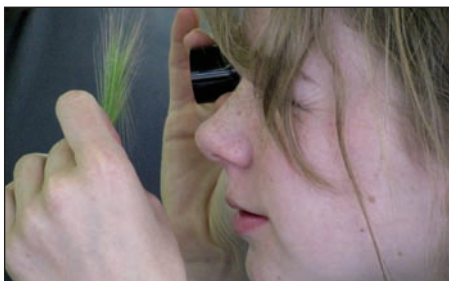

## ***Academic success and personal development for every student.***

Each student receives the personal attention necessary to reach his or her goals.

Small, discussion-oriented classes encourage students to think critically, to communicate their viewpoints thoughtfully, and to act responsibly.
